

# Welcome to Year 3 2020-2021!

You can expect to learn lots of new things and have fun and adventures on the way. Rest up during the holidays because you are going to need lots of energy to keep up! Can you rise to the challenge?

Settle into y3 with our Commotion in the Ocean Transition topic. You will explore all the creatures of the sea with lots of fun craft activities and maybe some dressing up!

The year 3 classrooms are located in the main building near the walk through area. Please help your child become more independent when dropping them off in the morning. Remember to arrange a meeting place to pick up at 3.10pm, as the children leave from the classroom's external door and are not handed over to parents in the Juniors.

Break time is around 10.30am and Lunchtime is later than Y2 so remember to bring a healthy snack of fresh fruit.

Get ready for our first topic...

## 'Swords and Sandals'

Do you have what it takes to be a soldier or a gladiator? Could you be the next chariot racing champion? Learn all about the Romans and how they settled in Britain and then move on to the Anglo-Saxons.

Lots of opportunities to make and taste foods!

We're looking forward to reading a class story! Who is your favourite author?

Back with a splash! We may be swimming in September!

Don't forget, you will need one pencil case that will fit in your tray!
