

# Plant a Flower Day

(31<sup>st</sup> March 2021)

What could be more fun than spending a day with all sorts of different flowers? Plant a Flower Day also gives children the chance to unplug from their devices and learn more about the beauty of nature.

## What's happening?

On 31<sup>st</sup> March Wraysbury Primary School will be celebrating "Plant a Flower Day" by planting flowers (including Dahlias, Dwarves and Sweet Peas.) all over the school.

## Did you know?

The art of using flowers for decoration dates back to ancient Egyptian times. In the 3rd century BC, in China, flower arrangements were also used in religious practices.

## How can you celebrate "Plant a Flower Day"?

The best way to celebrate "Plant a Flower Day" is to plant a flower, or even many flowers! As mentioned above Wraysbury Primary school's Eco Committee will be planting Dahlias, Dwarves and Sweet Peas all around the school which not only celebrates Plant a Flower Day but also increases biodiversity.

## Top tip:

If you don't have a garden, you can buy some plant pots and plant your flowers indoors or even outside your house (or flat).

**We hope to see Wraysbury soon blooming with beautiful flowers!**

# Plant a Flower Day

We are planting flowers around the school

Flowers are presents

National Plant-a-Flower Day is on March 12th.

Flowers can make you sneeze

Bees pollinate from flower to flower

All the flowers we are planting attract insects for biodiversity

Dahlia flower the more you cut the more it grows

Flowers drop seeds that turn into flowers

Sweetpea flowers smell very nice!

Wildflowers grow in the wild and are not planted

Flowers are very pretty

Emin

# PLANT A FLOWER DAY!

**This year we will be planting flowers on the 31st March!**

**Wraysbury Primary School is celebrating Plant a Flower Day by planting Sweetpeas, Dahlias and wildflowers.**

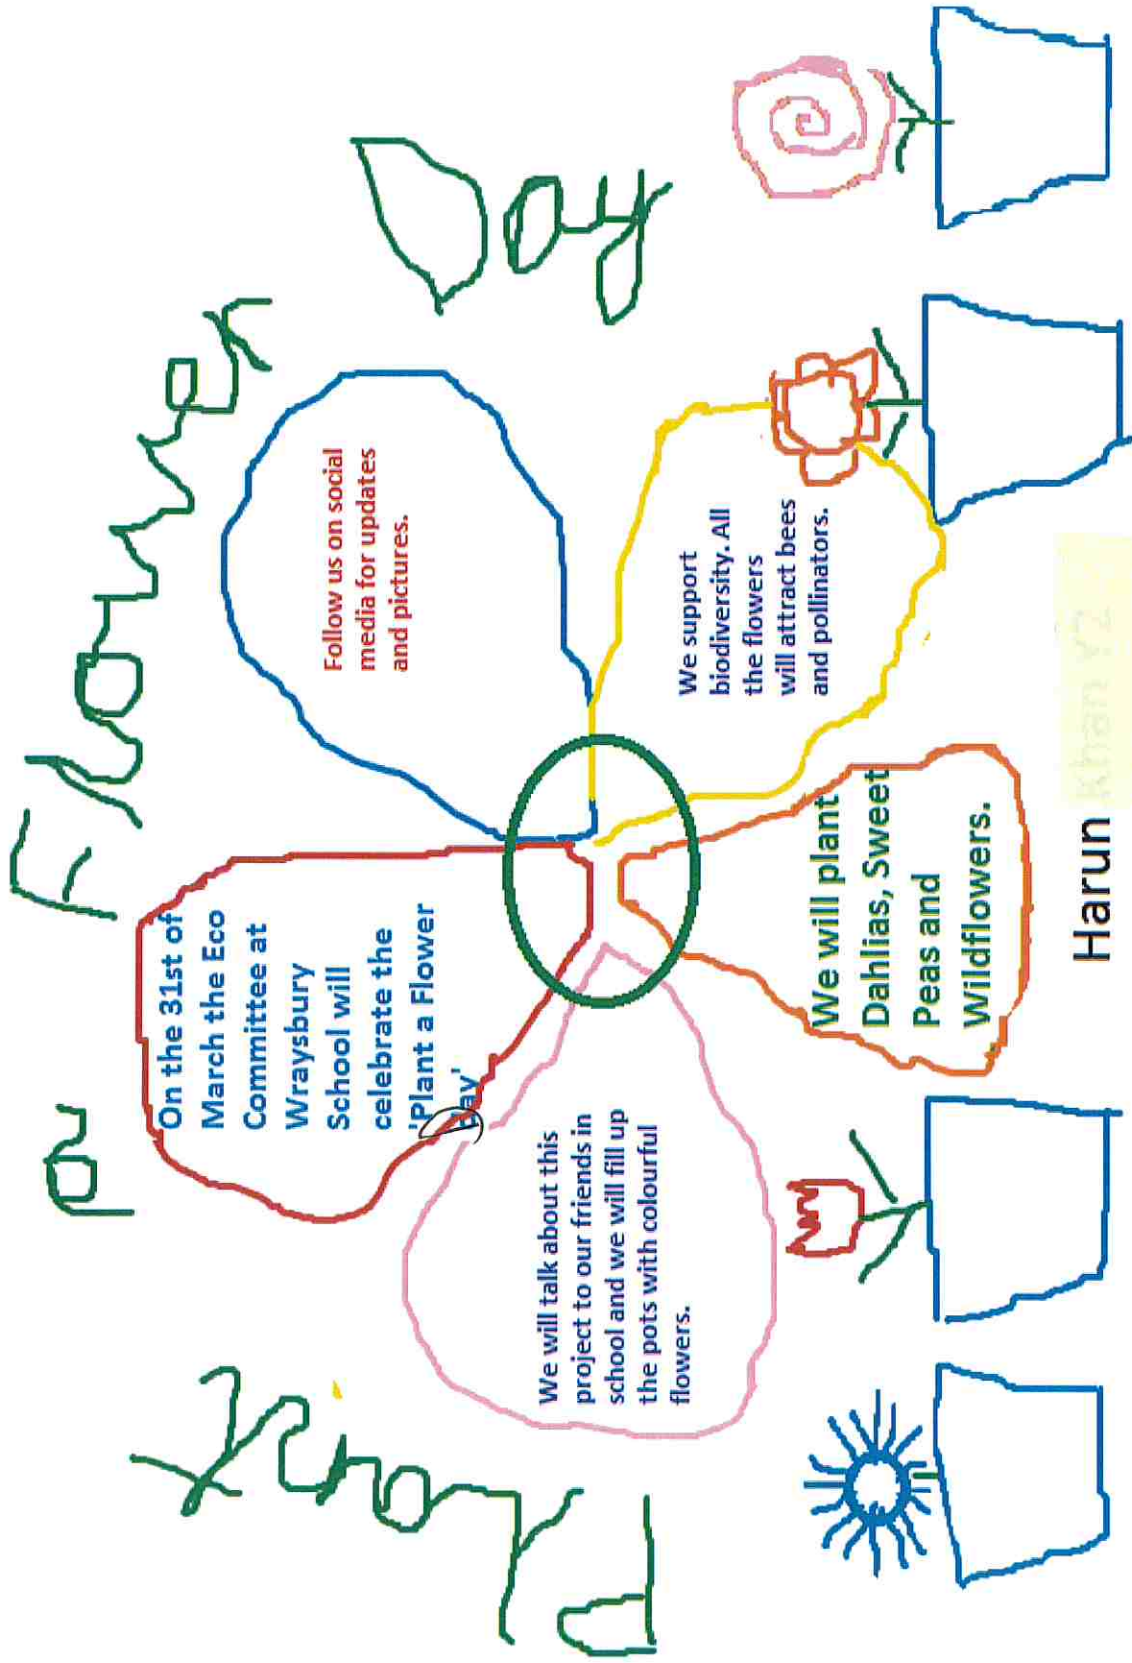

**Why don't you join in by planting flowers in you local park or back garden!?**

**Flowers are important because:**

- **They provide homes for bees!**
- **Provide food for insects!**
- **Flowers look pretty and can make you feel happy!**
- **Flowers help the environment!**
- **It's also fun to dig and get DIRTY!**
