Pick me!

Read the applicant profiles and discuss which have the best qualities for the space mission.

1

Job: I am a professional photographer. I have had my photographs of landscapes published in many magazines. I have won awards for photographs of sunsets. I would love the opportunity to photograph new planets!

Skills: I like working alone.
Hobbies: painting, drawing

2

Job: I am a trained fighter pilot and have flown on many secret missions.

Skills: I have excellent eyesight and am also a trained navigator. I remain calm in a crisis and work best when part of a team. I am often chosen to be the team leader.

Hobbies: scuba diving, running, computer games

3

Job: I have had jobs as a dog-handler and driver. I swam for my country in the 2012 Olympics. I am hoping to take part in the next Olympics so I need to train hard and keep up my fitness levels and muscle tone.

Skills: I like to push myself very hard and I love winning!

Hobbies: swimming

4

Job: I am a trained nurse. I am fascinated by people and would love to know if there are other life forms in the universe.

Skills: I have a lot of patience and I enjoy caring for others.

Hobbies: spending time with my family, reading, crossword puzzles

5

Job: I am a scientist; a biologist with an interest in the beginnings of life. I have visited the most uninhabitable places on earth, searching for signs of life.

Skills: I am prepared to go to any destination, however dangerous, to find what I am looking for. I enjoy working as part of a small team.

Hobbies: mountaineering, skiing, fitness

6

Job: I am a journalist. I have worked for many newspapers. I enjoy reporting stories from unusual places. I would love to report on a trip to outer space!

Skills: I like the buzz of meeting lots of different people.

Hobbies: dancing, singing, meeting friends
