

Home learning for English Week commencing 19th October

To ensure all the children in KS1 cover a range of work throughout the year we will be basing the majority of our home learning on spelling, punctuation and grammar. These will mostly match with learning done in the classroom and the children will recap many of the areas in order to ensure they have a deep understanding.

Please see the video links and activities to support your child's learning.

Many thanks, KS1 team.
