Monday-PM
Tuesday- PM
Wednesday- PM
Thursday- All Day
Friday- PM

23rd Feb 2018

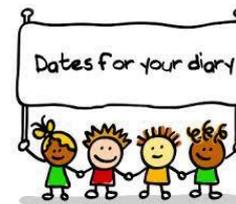

This week Pre-School have been looking for bugs and have set up their own bug investigation area.

Class 1 have been adding and subtracting near doubles, identifying deciduous and evergreen trees and looking closely around the village for plants that George Forrest discovered in Yunnan. The children made the most of the glorious sunshine on an adventurous plant hunt with Pre-School.

Class 2 have been finishing writing their legends. In Maths they have been looking at grams/kilograms and measuring in millimetres and centimetres.

Class 3 have begun to research facts for a non-chronological report on the life and times of people in the Dark Ages.

In Maths children have been adding and subtracting fractions, converting fractions to the lowest common denominator.

Friday 2nd March- Class 3 performance Budehaven 5.30-6.30 all parents welcome

Monday 5th March- Year 3/4 football at Callington

Tuesday 13th March- Warbstow Fun run 1.30.

Weds 28th March- Music assembly-Parents welcome

Thursday 29th March-LAST DAY OF TERM

Monday 16th April-SUMMER TERM BEGINS

Classroom build update

A big thank you to the attendees of the meeting yesterday. A strong turn out; excellent representations by parents, advisory board members, local residents, Cornwall CC and Aspire.

The team from Arcadis were on “the back foot” for the whole of the meeting and the representative from Cornwall CC (Sharon Hindley), could only apologise for the failings that have beset the project.

On a positive note, I feel confident that Arcadis are making this a priority and will be going out of their way to insure the project is delivered on time. I know they don't want to go through that again.

Again, a thank you to those present for their passion, time and energy, who have given us at Warbstow School the added support, applying pressure onto the Arcadis team.

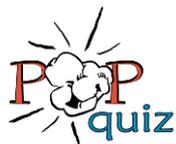

A polite reminder that if your child receives 30 hours funding, please can you make sure you have renewed your codes.

Just a reminder that Year 3 and 4 Football league will be on Monday 5th March at 4.40 in Callington.

We wish our cross country squad good luck for Mondays league at Wadebridge.

Who are Woden, Frige, Thunor & Tiw? Woden was king of the Anglo-Saxon gods, Frige was goddess of Marriage, Thunor was the god of Storms, Lightening and especially Thundor and Tiw was the god of War and Combat.

This weeks question: What is a fronted adverbial?

There was a little confusion in the letter that went home regarding the music event next Friday for Class 3. The event is being held at Budehaven Community Hall and starts at 5.30.

We would like to wish all of our students who are entering the Wadebridge Festival of Music and Speech next week the best of luck, we are very proud of you.

Attendance

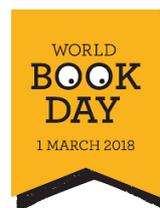

School year to date: 95.3%

I am pleased to see another increase 01.% this week. Thank you for your continued support with this.

Days off school add up to lost learning

175 NON SCHOOL DAYS A YEAR

175 days to spend on family time, visits, holidays, shopping, household jobs and other appointments

We will be participating in World Book Day on Thursday. Children are welcome to come to school dressed as their favourite book character. No donation necessary.

Children attending the music festival will be judged in the afternoon.

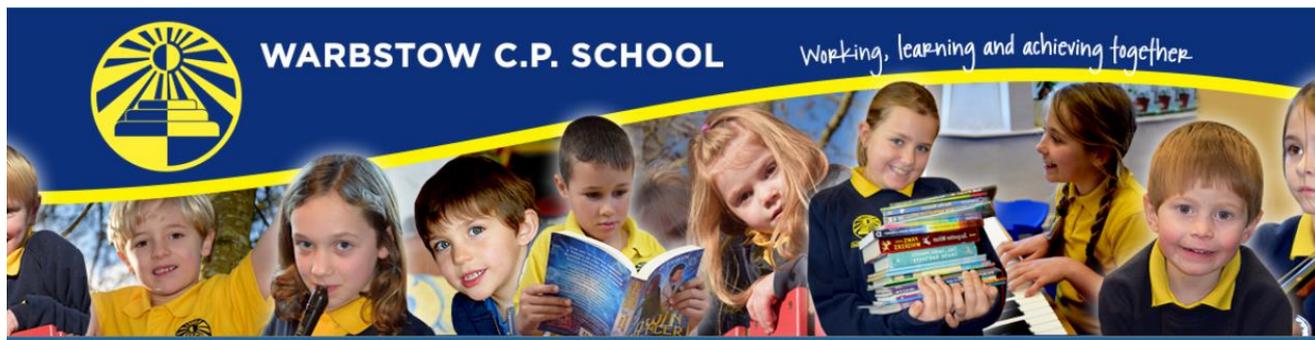

We will have a selection of books for children if they would like to spend their £1 token at school.

This week saw an increase in our FunFit numbers which is fantastic. We would like to remind you of the 2 for 1 offer that we have on, If you buy a pass for one of the sessions you can attend the other session for free. As there are now only 5 weeks remaining until Easter A pass for the rest of the term will cost £12.50 per child or a family pass for 2 or more children for £25. FunFit runs in the hall from 8am Tuesday and Thursdays.

FunFit is a programme which aims to improve motor co-ordination and underlying postural stability and balance in children. Activities will also help to improve eye-hand co-ordination, body awareness, spatial awareness and ball skills. The activities are based on typical motor skill development. They have been chosen to help improve the first and second stages of motor skill development i.e. foundations of movement skills particularly postural control and co-ordinating both sides of the body together, and the fundamental movement skills including jumping, hopping, skipping, balancing which together provide a foundation on which fine motor skills can develop.

Our new website

We are excited to be able to let you know that our new website has officially launched today.

www.warbstow.org.uk

Over the past term, we have been looking at our Carbon footprint and the costs of things we do daily/weekly. As a result of this, we will be moving towards corresponding as much as we can electronically. This will start with all of our newsletters being put onto our website, rather than printed copies being sent home. It will be available from 3.30 every Friday with effect from Friday 2nd March, this will help to reduce our administrative costs and improve value for money. We have also now activated the eschools platform.

The new platform will improve how we communicate with you. ALL correspondence eg newsletters and letters will now be sent via this platform along with text messages on updates of things happening in the school. We hope to have all your log in details available next week. As such ALL parents will be asked to download this free app onto their mobile phones/tablets once received.

For those that still like to read a paper form of the newsletter, copies will be available in the reception area.

As with all things new, there may be some teething problems, and although Miss Hicks has gone through each page of the new website there may be some errors, so please if you spot any, let her know so that they can be rectified.

Warbstow Wonders

To share our children's achievements we are going to publish the names of pupils receiving special certificates.

This week congratulations go to:
