

Rainbow Challenge

I thought it would be a nice idea for us to create our own whole school rainbow using pictures of each of us and put them all together to make a giant Andoversford rainbow!

To do this, you will need to create an A4 picture using **only** the colour assigned to your class (see below). Then, you will need to ask an adult to take a **portrait** picture of you holding it close to the camera so that the **edges of your picture are at the edges of your photograph**. Please make sure your picture is towards **the bottom of the screen** too e.g.

Check this list to see which colour picture you need to create for your year group:

Reception: **Violet**

Year 1: **Indigo**

Year 2: **Blue**

Year 3: **Green**

Year 4: **Yellow**

Year 5: **Orange**

Year 6: **Red**

Top tips:

- Make your picture as colourful as possible – try not to leave any white spaces on your page.
- Why not wear something the same colour as your picture too!
- We want to see your lovely big smiles, so make sure you are wearing your cheesiest grin!

Send your photos to me either via the VLE or through the office email admin@andoversford.gloucs.sch.uk . I cannot wait to see them!
