

PE and Sport Premium Funding APRIL 2017 to MARCH 2018 REVISED

It is our understanding that the Academy will now receive circa **£21,100** to promote a wide range of high quality sports provision for all pupils, as the Government has pledged to double the PE and Sports Grant to schools and academies from Sept 2017.

We have six general principles for the proposed use of this grant:

- To increase engagement in sport and games from an early age, that is for our youngest pupils.
- To identify and offer additional provision outside normal school hours for target groups of pupils who have not previously attended out of school sports provision.
- To provide a wider range of sporting experiences for those pupils who have already shown that they are skilled and talented in sport.
- To provide additional out of school sports activities across the school (including Y5 and Y6 residential visits).
- To promote and provide our pupils with access to competitive sports tournaments in a range of sports.
- To provide our pupils with more opportunities to play games or sports in the playground at break and lunchtimes.

The following list shows how Huntington Primary Academy intends to spend the 2017/2018 PE and sport premium (circa £21,100):

- Funding for all Y5 pupils to take part in a sports - based residential visit to a local fee paying school and for a sports coach to attend (£1,000).
- Subsidising fees for the longer sports- based residential visit for some Y6 pupils and for a sports coach to attend (£1,000).
- Funding travel, supply costs and first aider to enable pupils and their families to attend regional sporting events in school time with a sports coach (£2,000).
- Funding a 'Super Saturday Sports Club' for EYFS and KS1 pupils (£4,000).
- Funding after schools clubs for alternative sports such as archery (£4,000)
- Funding kit/hoodies etc. for our sports teams (£500).
- Funding vulnerable pupils to attend sports clubs, such as York City FC and 'Total Energy', and taxis to transport these pupils home after clubs (£500).
- Improve playground facilities to promote sports activities in the playground (£7,300)
- Funding extra staffing and training to enable pupils to learn to swim in smaller groups (£800).
