

Develop your creativity:

(3 points)

- Look at photographs of the famous flower carpet that covered the entire 'Grand Place' in the centre of Belgium. Recreate this flower carpet design using artistic materials of your choice or small pieces of tissue paper to represent the flowers.
- Create a model of the Atomium using materials of your choice.

Out and About:

(2 points)

- Visit a local library and research France or Brussels and the EU.
- Visit your local council house or town hall. What decisions are made there? Is it an old or new building? What kind of jobs do people have that work there?

This half term's POWER Project is:

“Are your rights the same as mine?”

Choose projects to achieve your minimum

10 POWER Points.

5 points due in 13th February

5 points due in 1st April

Tick off what you have completed to achieve your points.

Mathematical skills:

(2 power points)

- ◆ Plan and cost out a weekend break to Paris on a tight budget. How would you get there? Compare the cost of flights and the Eurostar. Where would you stay? What would your itinerary be? Include the cost of admission to attractions, eating out and souvenirs to your trip itinerary.
- ◆ Create a continuous line graph to convert between euros and pounds. Convert a range of amounts.

Research skills:

(2 points)

- Research the role of an MEP. What do they do? Which politicians are MEPs? Who is the MEP who lives closest to your home town?
- Interview friends and family about Brexit. Try to find people who support opposing sides of the argument. Create a 'for' and 'against' poster.
