

Dear Parents and Carers,

Thank you for all your support on Sports Day. The children really enjoyed sharing their successes with you. Well done to all the parents who took part in the races!

This week we continued our work on 'Billy's Bucket' focusing on the sea creatures that Billy saw in his bucket. The children have been learning about the amazing behaviour of puffer fish, sharks and a colour changing octopus! This supported the children to write amazing stories based on sea creatures characters.

We have also been learning about 3D shapes this week. Children have been trying to remember the mathematical names for cubes, cuboids, cones, spheres and cylinders as well as talk about their properties. (It has 6 faces, it has 8 corners what shape am I?) Please reinforce this learning by looking for real life examples of these shapes when you're out and about. This can take the form of a 3D shape eye spy game. We are happy to put any photos or drawings of examples your child finds into their learning journey.

Next week each child will need an old plastic bottle for our art activities. We also desperately need kitchen roll tubes, tinfoil, paper plates and any spare sparkly craft things. Thank you we really appreciate your donations but please make sure they are clean!

Today your children spent some time in their new Year 1 classroom getting to know their new teacher. They were very excited! Please give your child the opportunity to discuss their visit in a positive manner, focusing on what they are looking forward to, or what they found exciting.

We are looking forward to Foxes class assembly at 9.00am on Thursday 4th July and Hedgehogs (rearranged) class assembly at 9.00am on Friday 5th July.

Thank you for your continuing support.

The Reception team
