

Dear Parents/Carers,

We have had a great week and a fantastic time at Kew Gardens. We really enjoyed our mini beast workshop and planning our recounts about our day. In Maths, we have been working on word problems and have been using mental methods to help check our answers.

### Geography:

This week we have been learning what an aerial view is and created our own of the playground. This is all in preparation for next week's lesson on maps and map symbols.

Use the link below to find aerial views from all over the world

<https://earth.google.com/web/>

This link will help prepare your child for next week's lesson:

<https://www.bbc.com/education/clips/zc6yr82>

### Art:

We have been practising different sketching techniques such as cross hatching and smudging.

The link below includes video of different art techniques you can try at home:

<https://www.bbc.com/education/topics/z83bkqt/resources/1>

Why not use one of these techniques to draw an animal or mini beast you saw at Kew?

### Reminders

**Sports Day is on Friday 21<sup>st</sup> June. P.E. Kits will be sent home on Thursday 20<sup>th</sup> June. Please make sure your child comes into school, dressed in their P.E. kit on Friday. Art week is approaching and the children will need to bring in any spare egg cartons, a named shoe box each (or a box of similar size) and spare tissue rolls.**

Many thanks,

The year 2 team
