

Dear Parents/Carers,

This week, we have celebrated Science Week in Year 2 . The children participated in a science investigation day on Tuesday. The children had a fantastic time and demonstrated lots of brilliant scientific thinking. They took part in 4 different investigations exploring different aspects of science and worked fantastically in groups!

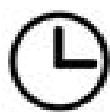

If you haven't yet had a chance to look at the Explorify website, it is a fantastic resource for engaging your child with lots of different aspects of science, including the scientific vocabulary they need to be super scientists. If you sign up for a free account, you can also use the interactive resources with your child by accessing the website here: <https://explorify.wellcome.ac.uk/>

These are our working scientifically symbols and they encourage children to think carefully about their area of learning and the skills they are using to answer questions or find out new information.

Reminders

Tuesday's Year 2 clubs have now finished for the term; please pick your child up at the normal time.

Many thanks for sending boxes! They are turning into fantastic vehicles, it is a joy to see so much creativity!

The Year 2 Team
