

English

Our English will focus on three genres this term. A Non-fiction text based on a book called 'Transport'. It will link nicely to our trip to Flambards as well as our excursion around the local area.

Our fiction unit will be based on Little Red Riding Hood. The children will explore the text looking for a wide variety of vocabulary and will look at building sentences using adjectives, adverbs and some conjunctions. They will then apply all they have learnt to retell it in their own words. Our third text will be poetry. We will explore the story poem 'Tell me a dragon.' This book is bursting with rich vocabulary and descriptions, which will help the children, build their own poems.

Music

Music lessons this term will involve singing and the musical preparation for this years Nativity.

RE

Our Religious Education study will be looking at the Christian festival of Christmas, which will also link nicely to our school Nativity.

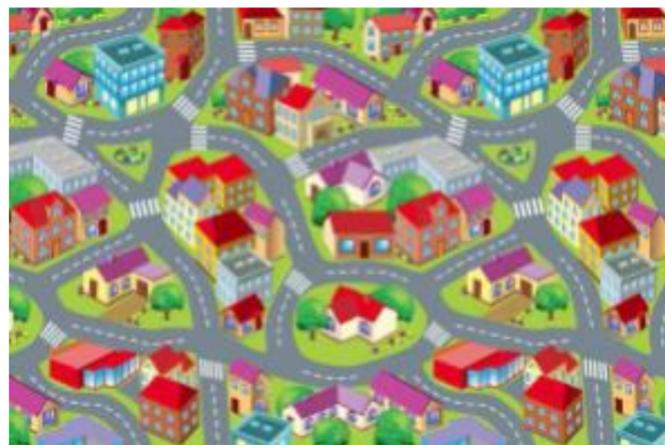

PSHE- Jigsaw scheme

Our puzzle piece this term is 'Celebrating Differences'

Maths

Maths this term will continue our work involving column addition and subtraction, before we move onto multiplication and division.

Autumn ~ Term 2 Street Detectives

Phonics will be taught daily using Read Write Inc.

ICT

In our computing lessons the children will be building on their understanding of programming, using algorithms and debugging to fix problems. They will also be using a simple program to import and add text to digital photographs.

Science

In science, the children will build on their learning in year 1 when they investigate materials and their properties, looking at the suitability of different materials for a specific purpose.

PE

Our indoor PE will involve the children using different parts of their bodies to travel around the hall. Outdoor PE will be all about ball skills.

Geography

We have quite a bit of geography this term. We will carryout fieldwork studies in our local area, a traffic survey and will finish by designing a futuristic town.

History

This topic is history rich and we will be mostly looking at homes in the past, hence our visit to Flambards. We will also be looking at the contributions Richard Trevithick made to the transport industry.

Art/Design Technology

LS Lowry's urban landscapes will be the focus of our art work this term as well as street art. Design Technology will involve working together to build a town from cardboard and tasting , designing and making flavoured biscuits.
