

EYFS Mathematics: Numbers and Shape, Space and Measure

End of Year Expectations

Numbers (ELG):

- Children count reliably with numbers from 1 to 20, place them in order and say which number is 1 more or less than a given number.
- Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer.
- They solve problems, including doubling, halving and sharing.

Shape, Space & Measure (ELG):

- Children use everyday language to talk about size, weight, capacity, position, distance, time and money to compare quantities and objects and to solve problems.
- They recognise, create and describe patterns.
- They explore characteristics of everyday objects and shapes and use mathematical language to describe them.

Some children may exceed the ELG (Early learning goal) for these areas. They will then be working at the descriptors below:

- **Numbers:** Children estimate a number of objects and check quantities by counting up to 20. They solve practical problems that involve combining groups of 2, 5 or 10, or sharing into equal groups.
- **Shape, Space & Measure:** Children estimate, measure, weigh and compare and order objects and talk about properties, position and time.
