Additional Maths Learning - White Rose Maths Resources

After half term, we will be starting to use the White Rose Maths website for maths learning. It is a great resource that the Junior School have been using for home learning during the last half term. We are now able to offer this to the infant school and hope that it will run alongside maths that the children do through Mathematics and on home learning sheets.

Reception Classes

To access the resources, go to the following website: <https://whiterosemaths.com/homelearning/early-years/>. There are videos for each week covering each age group.

You will need to use the Early Years work and start on: **Summer Term - Week 6 (w/c 1st June) / Day 1.**

Children need to watch the video and then complete the worksheet which is provided in the 'Get the Activity' section. Ideally, you will need to print out the worksheets and use them as a prompt for discussion and finding out more. A new set of lessons will be added each week.

If you have any questions, please email admin2332@we-learn.com.

Starting with a Story Reception

Talking Together

Can you make your own mini beast patterns?
Take this further by using different sizes of the minibests!
For example, length or size of your superworms!
