## Can you find out about FOOD in South America?

- Explore which foods are grown by farmers and where they are grown.
- Find out about some traditional dishes in different South American countries or regions.
- Investigate which foods are exported to other countries.

**Carry out your research then present what you have found out in whichever way you think best shows the information.**

## Can you find out about BUILDINGS in South America?

- Explore which kind of buildings people live in in different areas of South America.
- Find out some of the tallest structures and where they are.
- Investigate construction methods and materials used for building different structures.

**Carry out your research then present what you have found out in whichever way you think best shows the information.**

## Can you find out about HEALTH in South America?

- Explore what the healthcare in different areas of South America is like.
- Find out the average life expectancy of different countries.
- Investigate which diseases and illnesses pose the biggest threats in different areas.

**Carry out your research then present what you have found out in whichever way you think best shows the information.**

## Can you find out about RELIGION in South America?

- Explore what the main and minor religions of each country are.
- Find out about religious festivals in different South American countries.
- Investigate how people worship in different areas of South America.

**Carry out your research then present what you have found out in whichever way you think best shows the information.**

Can you guess which countries each of these population figures represents? Use a map of South America to help you!
