

Secondary Pastoral Leadership Programme 2019-2020

This is an exciting new programme aimed at Year Leaders, Heads of House and Senior Leaders with responsibility for pastoral, behaviour, welfare and character development. It can be hard to find leadership courses designed with a specific pastoral focus. This is such a crucial job in shaping the culture, climate and outcomes of the school and the role has developed significantly over the years to take into account a much more complex range of skills and expertise.

- Four twilight workshops over the course of the year
- Specific leadership and skills development for pastoral leaders
- Experienced course leaders with proven experience of working in high performing organisations in pastoral roles.
