

Dear families

Over the next day, your child/children will be receiving a class email from their class teacher. Every child in the class will be receiving the same email. This has been carefully thought through to ensure your child knows they are kept in mind by school staff. Teachers will be offering new ideas for age-related learning and ways to keep busy during school closure time. The class website pages will also be refreshed regularly. Check out Ms Horne's story reading video on Opal's class page!

Please be assured, there is no pressure attached to this; please see this as a supportive measure for your family. We're all facing a change in circumstances and it will take time for us to get into new routines and habits. Don't feel pressured to suddenly start home learning! Class teachers are not expecting parents/carers to replicate what goes on at school but do keep any learning or creations that your children make to celebrate with us upon their return to school.

On that note, please understand that teachers are also adapting to a new way of working. Should you need to be in touch with the class teacher regarding your child's learning, teachers will respond during school hours only. Please be mindful that teachers won't be able to respond to lots of individual requests. Hopefully we're making things supportive enough that you'll find answers to any questions on the school's website. We're continually reviewing and refining how we're working through this time. If you have any urgent worries or concerns, please send these straight through to head@st-day.cornwall.sch.uk or lvallance@st-day.cornwall.sch.uk.

Thanks for your continued support and flexibility at this time.
Laura Vallance
