

Weston Mill Community Primary Academy School

Catch up funding.

In light of the recent lockdown, and children now returning to school, we as a school are working hard to support all our pupils in moving their learning forward.

With the funding from the Government, which schools are to allocate as they see best, we are talking into account previous strategies that have worked with our children, as well as reflecting on the needs of the children as they return to school life.

At Weston Mill, our approach will be:

- To support the well being of our children in settling back into school, managing their emotions and developing their learning capacity in a positive way.
 -
- To ensure the provision for children within the school day enables children to develop their learning from where we have identified them to be, focusing on our key areas which include phonics, development and confidence of reading, fundamentals of mathematics (number recognition, number bonds, tables and fluency within mathematics) and reducing the gaps in their understanding and knowledge.
 -
- Continue to ensure a broad and balanced curriculum is delivered for each year group.
 -
- Develop intervention work with some key groups, working with known adults to support the children in moving their learning forward, either within the school day, or as a group after school.
