Dear parents and carers,

In school every 6 weeks the children complete a small reading test that provides us with their reading levels. This test is called a star test and is done through our accelerated reader platform online. The test itself only takes 20-30 minutes and is made up of 34 multiple choice questions. The questions adjust the level of difficulty throughout the quiz which is how it decides a child's reading level.

I am writing to ask, if your child is at home and currently learning remotely could they please take this reading test at home. I have attached a user guide below this letter to help you access the test from home.

Once the tests have all been completed your child's teacher will be in contact with you via e-schools to update your child's reading level. You can then use AR book finder to check that the book your child is reading is the correct level <https://www.arbookfind.co.uk/>

Thank you for your continued support with your child's reading.

Best wishes,
Michelle Abbott
(English Coordinator)

Star Test Guide

Log in to <https://ukhosted112.renlearn.co.uk/1893623> with your child's details. The username being the first letter of their first name and the first four letters of their surname for example (mabbo). Their password will then be abc.

1. Once you have logged please click Star Reading.

2. You will then be asked to put in an authorisation password. This password is admin. Please could you not share this password with your child so that they cannot access the tests on their own.

3. Once you have entered the password the test will start. Your child will then need to answer the questions given to them on the screen. This test should take your child around 20-30 minutes as there are 34 questions.
4. Once the quiz has finished it will automatically log your child out showing that the test has finished.
