

# St Uny CE Academy Weekly Home Learning

## Year 4 (Week 4)

	Monday	Tuesday	Wednesday	Thursday	Friday																			
<b>1</b>	<b>Morning Motivation</b> Joe Wicks morning activities Monday, Wednesday, Friday (9am) <a href="https://www.youtube.com/playlist?list=PLYCLoPd4VxBuPuwfVuS-OBtK_kZqJCX-b">https://www.youtube.com/playlist?list=PLYCLoPd4VxBuPuwfVuS-OBtK_kZqJCX-b</a> Tuesday & Thursday – get active together.																							
<b>2</b>	<b>Spellings</b> Refer to weekly spelling list and practise spellings.	<b>Spellings</b> Refer to weekly spelling list and practise spellings.	<b>Spellings</b> Refer to weekly spelling list and practise spellings.	<b>Spellings</b> Refer to weekly spelling list and practise spellings.	<b>Spellings</b> Spelling test.																			
<b>3</b> <b>Writing</b>	'The Write Stuff' virtual lesson link: 9.45am <a href="https://www.youtube.com/c/TheTrainingSpace">https://www.youtube.com/c/TheTrainingSpace</a>  <b>Alternative task:</b> Write a special prayer about what you are thankful for. Include at least 3 things.	'The Write Stuff' virtual lesson link: 9.45am <a href="https://www.youtube.com/c/TheTrainingSpace">https://www.youtube.com/c/TheTrainingSpace</a>  <b>Alternative task:</b> Write and send a postcard to a family member or a person in your community to cheer them up.	'The Write Stuff' virtual lesson link: 9.45am <a href="https://www.youtube.com/c/TheTrainingSpace">https://www.youtube.com/c/TheTrainingSpace</a>  <b>Alternative task:</b> Write a letter to Mrs Quick or Miss Jones explaining what exciting things you have been doing over lockdown. E.g. a walk in the woods, family time on the beach, exercise etc.	'The Write Stuff' virtual lesson link: 9.45am <a href="https://www.youtube.com/c/TheTrainingSpace">https://www.youtube.com/c/TheTrainingSpace</a>  <b>Alternative task:</b> Write a scene from the Iron Man. Choose your favourite plot point. Include some of the fantastic, grammaristics and boomtastics lenses.	'The Write Stuff' virtual lesson link: 9.45am <a href="https://www.youtube.com/c/TheTrainingSpace">https://www.youtube.com/c/TheTrainingSpace</a>  <b>Alternative task:</b> Create and write a persuasive poster with a gripping slogan to encourage people to look after their local beach, park, woods or playground.																			
<b>4</b> <b>Maths</b>	<p>Follow the link below to watch a demonstration lesson on one step word problems and do the quiz at the end.  <a href="https://classroom.thenational.academy/lessons/representing-one-step-word-problems-6mt3ad">https://classroom.thenational.academy/lessons/representing-one-step-word-problems-6mt3ad</a>            If you can't watch the clip, or if you want extra practice, try these questions.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 5px;">A spider monkey's tail is 43cm long. It grows an extra 29cm. How long is the spider monkey's tail now?</td> <td style="padding: 5px;">There are two jaguars. The first jaguar eats 58kg of meat. The second jaguar eats 17kg more than the first jaguar. How many kilograms of meat does the second jaguar eat?</td> </tr> <tr> <td style="padding: 5px;">A tiger cub is 46cm long. When fully grown, it can grow up to 127cm long. What is the difference in length between a tiger cub and a fully grown tiger?</td> <td style="padding: 5px;">A tamandua eats 74 ants in the morning and 48 ants in the afternoon. How many ants did it eat altogether?</td> </tr> <tr> <td style="padding: 5px;">A troop of 87 ring-tailed lemurs were lying in the sun. 28 of them decided to pick some delicious fruit from a nearby bush. How many lemurs were still lying in the sun?</td> <td style="padding: 5px;">A bat's wingspan is 23cm long and a parrot's wingspan is 98cm long. How many centimetres longer is a parrot's wingspan than a bat's wingspan?</td> </tr> <tr> <td style="padding: 5px;">68 spider monkeys were sitting in the rainforest canopy. 47 spider monkeys from the ground decided to join them. How many spider monkeys are sitting in the rainforest canopy now?</td> <td style="padding: 5px;">A capybara eats 67g of grass in the morning and 38g of grass in the afternoon. How many grams of grass did the capybara eat altogether?</td> </tr> </table>	A spider monkey's tail is 43cm long. It grows an extra 29cm. How long is the spider monkey's tail now?	There are two jaguars. The first jaguar eats 58kg of meat. The second jaguar eats 17kg more than the first jaguar. How many kilograms of meat does the second jaguar eat?	A tiger cub is 46cm long. When fully grown, it can grow up to 127cm long. What is the difference in length between a tiger cub and a fully grown tiger?	A tamandua eats 74 ants in the morning and 48 ants in the afternoon. How many ants did it eat altogether?	A troop of 87 ring-tailed lemurs were lying in the sun. 28 of them decided to pick some delicious fruit from a nearby bush. How many lemurs were still lying in the sun?	A bat's wingspan is 23cm long and a parrot's wingspan is 98cm long. How many centimetres longer is a parrot's wingspan than a bat's wingspan?	68 spider monkeys were sitting in the rainforest canopy. 47 spider monkeys from the ground decided to join them. How many spider monkeys are sitting in the rainforest canopy now?	A capybara eats 67g of grass in the morning and 38g of grass in the afternoon. How many grams of grass did the capybara eat altogether?	<p>Follow the link below to watch a demonstration lesson on two step word problems and do the quiz at the end.  <a href="https://classroom.thenational.academy/lessons/solving-two-step-word-problems-69k3qr">https://classroom.thenational.academy/lessons/solving-two-step-word-problems-69k3qr</a>            If you can't watch the clip, or if you want extra practice, try these questions.</p> <p>1. On Sunday I spent 114 minutes on my art project, and 45 minutes on my numeracy homework. On Thursday evening spent a total of 86 minutes on my history project and 39 minutes reading. What is the difference in minutes between the amount of homework I did on Sunday and Thursday evening?</p> <p>2. Dad drives a truck. Last week he drove 267 kilometres on Monday, 186 on Tuesday and 198 on Wednesday. This week Dad drove 279 kilometres on Monday, 148 on Tuesday and 288 on Wednesday. What is the difference in kilometres between this week and last week?</p>	<p>Follow the link below to watch a demonstration lesson on applying and consolidating word problems and do the quiz at the end.  <a href="https://classroom.thenational.academy/lessons/applying-and-consolidating-word-problems-and-bar-models-70rkcc">https://classroom.thenational.academy/lessons/applying-and-consolidating-word-problems-and-bar-models-70rkcc</a></p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 5px;">             Salty Sam had one chest with 1148 gold coins and another with 1926 gold coins. How many coins did he have in total?  <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">1926</span> <span style="border: 1px solid black; padding: 2px 10px;">1148</span> </div> </td> <td rowspan="4" style="text-align: center; vertical-align: middle;"> <b>If you can't watch the clip, or if you want extra practice, try these questions.</b> </td> </tr> <tr> <td style="padding: 5px;">             Polly the parrot stole 2007 keys for her captain. She dropped 1099 of them into the sea. How many does she have left?  <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">2007</span> <span style="border: 1px solid black; padding: 2px 10px;">1099</span> </div> </td> </tr> <tr> <td style="padding: 5px;">             Captain Charlie sailed 2208 miles on Monday and 1643 miles on Tuesday. How far did she sail in total?  <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">2208</span> <span style="border: 1px solid black; padding: 2px 10px;">1643</span> </div> </td> </tr> <tr> <td style="padding: 5px;">             Sarah was a pirate who loved to fish. She managed to catch 3152 fish but 1319 of them got away. How many fish does she have now?  <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">3152</span> <span style="border: 1px solid black; padding: 2px 10px;">1319</span> </div> </td> </tr> </table>	 Salty Sam had one chest with 1148 gold coins and another with 1926 gold coins. How many coins did he have in total? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">1926</span> <span style="border: 1px solid black; padding: 2px 10px;">1148</span> </div>	<b>If you can't watch the clip, or if you want extra practice, try these questions.</b>	 Polly the parrot stole 2007 keys for her captain. She dropped 1099 of them into the sea. How many does she have left? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">2007</span> <span style="border: 1px solid black; padding: 2px 10px;">1099</span> </div>	 Captain Charlie sailed 2208 miles on Monday and 1643 miles on Tuesday. How far did she sail in total? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">2208</span> <span style="border: 1px solid black; padding: 2px 10px;">1643</span> </div>	 Sarah was a pirate who loved to fish. She managed to catch 3152 fish but 1319 of them got away. How many fish does she have now? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">3152</span> <span style="border: 1px solid black; padding: 2px 10px;">1319</span> </div>	<p><b>Practise adding and subtracting two 4 -digit numbers and challenge the members of your family.</b>            Use a dice or online number generator to choose some numbers. Who can solve the calculation first?</p> <p><b>Challenge question:</b>  <b>Always, Sometimes or Never? Number</b>            Are the following statements always true, sometimes true or never true?            How do you know?</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="padding: 5px;">The sum of three numbers is odd</td> <td style="padding: 5px;">If you add 1 to an odd number you get an even number</td> </tr> <tr> <td style="padding: 5px;">Multiples of 5 end in a 5</td> <td style="padding: 5px;">If you add two odd numbers you get an odd number</td> </tr> <tr> <td style="padding: 5px;">If you add a multiple of 10 to a multiple of 5 the answer is a multiple of 5</td> <td style="padding: 5px;"></td> </tr> </table>	The sum of three numbers is odd	If you add 1 to an odd number you get an even number	Multiples of 5 end in a 5	If you add two odd numbers you get an odd number	If you add a multiple of 10 to a multiple of 5 the answer is a multiple of 5		<p>Practise your 7x, 11x and 12x tables – you need to be able to shout out the answer within 6 seconds. Play these games to help practise first:  <a href="https://www.topmarks.co.uk/maths-games/hit-the-button">https://www.topmarks.co.uk/maths-games/hit-the-button</a>   <a href="https://mathsframe.co.uk/en/resources/resource/383/Marlons-Magical-Maths-Mission-Multiplication">https://mathsframe.co.uk/en/resources/resource/383/Marlons-Magical-Maths-Mission-Multiplication</a>   <a href="https://mathsframe.co.uk/en/resources/resource/289/KS2-Maths-Invaders">https://mathsframe.co.uk/en/resources/resource/289/KS2-Maths-Invaders</a></p> <p>Then try to have a times table knock out game with your family or play times table bingo.</p>
A spider monkey's tail is 43cm long. It grows an extra 29cm. How long is the spider monkey's tail now?	There are two jaguars. The first jaguar eats 58kg of meat. The second jaguar eats 17kg more than the first jaguar. How many kilograms of meat does the second jaguar eat?																							
A tiger cub is 46cm long. When fully grown, it can grow up to 127cm long. What is the difference in length between a tiger cub and a fully grown tiger?	A tamandua eats 74 ants in the morning and 48 ants in the afternoon. How many ants did it eat altogether?																							
A troop of 87 ring-tailed lemurs were lying in the sun. 28 of them decided to pick some delicious fruit from a nearby bush. How many lemurs were still lying in the sun?	A bat's wingspan is 23cm long and a parrot's wingspan is 98cm long. How many centimetres longer is a parrot's wingspan than a bat's wingspan?																							
68 spider monkeys were sitting in the rainforest canopy. 47 spider monkeys from the ground decided to join them. How many spider monkeys are sitting in the rainforest canopy now?	A capybara eats 67g of grass in the morning and 38g of grass in the afternoon. How many grams of grass did the capybara eat altogether?																							
 Salty Sam had one chest with 1148 gold coins and another with 1926 gold coins. How many coins did he have in total? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">1926</span> <span style="border: 1px solid black; padding: 2px 10px;">1148</span> </div>	<b>If you can't watch the clip, or if you want extra practice, try these questions.</b>																							
 Polly the parrot stole 2007 keys for her captain. She dropped 1099 of them into the sea. How many does she have left? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">2007</span> <span style="border: 1px solid black; padding: 2px 10px;">1099</span> </div>																								
 Captain Charlie sailed 2208 miles on Monday and 1643 miles on Tuesday. How far did she sail in total? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">2208</span> <span style="border: 1px solid black; padding: 2px 10px;">1643</span> </div>																								
 Sarah was a pirate who loved to fish. She managed to catch 3152 fish but 1319 of them got away. How many fish does she have now? <div style="display: flex; justify-content: space-between; width: 100%;"> <span style="border: 1px solid black; padding: 2px 10px;">3152</span> <span style="border: 1px solid black; padding: 2px 10px;">1319</span> </div>																								
The sum of three numbers is odd	If you add 1 to an odd number you get an even number																							
Multiples of 5 end in a 5	If you add two odd numbers you get an odd number																							
If you add a multiple of 10 to a multiple of 5 the answer is a multiple of 5																								

<p><b>5</b> <b>Reading</b></p>	<p><b>Reading</b> 20 minutes of reading with an adult.
