

Spring Term 1
Year 3 Computing
Internet Safety & Changing Case

Change Case

Monday

OBJECTIVES:

1. Children can identify different types of personal information that may be elicited in the online environment.
2. Children understand that very rarely are we offered something online without something expected in return.

SUGGESTED LESSON PROGRESSION:

Review the key teaching point from episode 2: there are some people in our lives that we can trust, and others we can't.

View Hector's World Episode 3 'It's a Serious Game' twice. Between viewings, review the story and ask the students to try to remember:

- Why didn't Sprat need to give his personal information at the games arcade?
- How did Squid know Sprat's personal information?
- Who Constable Solosolave warns Hector and his friends about giving their personal details to, and why.

Change Case

Tuesday

What am I learning to do?

I can use <shift>, <CAPS LOCK> and <space> correctly.

I can edit using <backspace>, <delete>, the arrow keys, undo and redo.

I can select and format text.

I can use the change case button.

Use the 'Change Case' button to change the case of the title so that the first letters of words (apart from determiners) are uppercase.

✗ an introduction to the bronze age

✓ An Introduction to the Bronze Age

Tuesday Activity

WHAT ARE WE LEARNING...

This week we are improving some pieces of text.
Can you use capital letters to improve the **title** and the **text** below?
Print out this slide and retype it on your computer at home.
Good luck!

| why bronze?

copper is a soft metal, but when it is melted and added to tin the result (bronze) is a much harder and durable material than copper or stone. it was used for tools, weapons and armour as well as building materials like decorative tiles. it could be used to make a greater range of tools and weapons than had previously been possible.

Wednesday Activity

WHAT ARE WE LEARNING...

This week we are improving some pieces of text.
Can you use capital letters to improve the **title** and the **text**
below? **You have 2 paragraphs this time!**
Print out this slide and retype it on your computer at home.

why the bronze age?

just like the stone age was so called because early humans made tools from stone, the bronze age was called the bronze age because humans started making tools from... bronze!

bronze was an alloy made from copper and tin. (alloy -a metal made by combining two or more metals to improve its properties) true bronze is a combination of 10% tin and 90% copper.

Thursday Activity

WHAT ARE WE LEARNING...

This time, can you use capital letters to improve the **title** and the **text** below?

Watch out for any names (proper nouns)...

Print out this slide and retype it on your computer at home.

prehistoric times

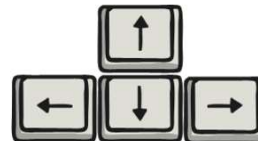

there is a large period of time for which we have no written records, we call this 'prehistory'. starting from evidence of the first early humans, it is split into three sections. the bronze age in britain lasted around 1500 years.

the stone age - 800,000 bc

the bronze age - 2,100 bc

the iron age - 750 bc

Change Case

Friday Activity

WHAT ARE WE LEARNING...

Today you can write your own paragraph all about...

the Stone Age (no capitals yet!!!)

Use what we learned earlier this year to help you.

Try to use capital letters correctly for the **title** and within the main **text**.

Remember to watch out for any **names (proper nouns)**...

Why not send a copy of your final piece to your teacher.
We would love to read them.
