

ST JOHNS PRIMARY - COMPUTING CURRICULUM

RESOURCES FOR SCHEME OF WORK

- We will be using the E-Lim resource
- This has planning for units and for e-safety
- Website is: <https://slp.somerset.org.uk/sites/edtech/SitePages/Home.aspx>
- User name: stjohsprim
- Password: ElimEdTech2

SKILLS

- The Units are split into 5 sections – focus areas
 - a) E-safety
 - b) Technology in our lives
 - c) Multimedia
 - d) Programming
 - e) Handling data
- Programming has a greater weighting than the others so will appear more often
- E-safety appears in Term 2 (Anti-Bullying), Term 4 (Internet Safety day), Term 6 (Health Week)
-

PLANNING OUTLINE

- 4 Classes – all following the same focus each term (so as to enable staff training)
- Take a look at the 2yr cycle (Year A, Year B) that has been produced by BBA
- Year A is the younger year group for the mixed age class , Year B is the older age for the mixed age class
- However, on the website there are alternative units – you are free to replace / move around if these units match the TOPIC you are doing...so long as you keep to the focus area (to make staff training easier)

STAFF TRAINING

- PDMs have been set aside for each term to facilitate staff training
- Term 1 PDM will be set for staff to familiarise with the website / planning and to look at re-designing their own 2 yr curriculum cycle if they wish

ATTACHMENTS

- Cycle A and Cycle B documents
- Year Group Original planners
- Foundation stage advice
- Skills progression
- Activebytes (E-Safety) overview
