

# Journeys – Food: Knowledge Organiser

## What I should already know?

That some foods are grown in the UK  
Some food are grown abroad

## Knowledge, skills and concepts:

In this unit, the children will:

- understand geographical similarities and differences through studying the human geography of their local shops, and physical geography through studying nearby food growing or production
- use locational and directional language (e.g. near and far) to describe the location of features and routes on a map
- name, locate and identify characteristics of the four countries and capital cities of the UK, and its surrounding seas
- use world maps, atlases and globes to identify the UK and its countries, as well as the countries, continents and oceans studied at this key stage.

## What will I find out by the end of the unit?

This unit links the everyday experience of buying and eating food within the UK with the children's growing geographical understanding of the world. As with many units in KS1, there is a strong element of local area study, with a suggested local shop, market or farm as a recommended visit. This will begin to show the class the connections between what we buy, where it comes from locally and how it might be able to be sourced from the UK (and beyond).

## Vocabulary – that may be unknown

High street, raw ingredients, packet, factory, delivered, wheat barley, oilseed rape, pasture, grassland.

United Kingdom, Wales, Scotland, Northern Ireland, South East, London, North West, East of England, West Midlands, South West, Yorkshire and the Humber, East Midlands, North East, landscape, landmarks, human, physical
