

Children will spend 7 exciting years at Holywell C of E Primary School. Our aim for children when they leave is for all children to be:

- **Energised and independent learners**
- **Curious and confident in seeking new experiences**
- **Caring and respectful of our community and the environment**
- **Determined to achieve the best for ourselves and our school**
- **Active and ambitious as part of the wider world**
- **Making contributions and decisions that have a positive impact now and in the future**

In addition to the learning that comes from delivering the National Curriculum, over their time at Holywell, pupils will be provided with a range of experiences to harness these skills and develop the ability to achieve goals ready for the next part of their journey. This will enrich their primary school journey helping all children to expand their horizons.

CORE CURRICULUM OFFER

English	Maths	Science	RE	Computing
