

Spring 1 - Home Learning Challenges - Once upon a time...

Stick this into your pink home learning log and choose a different activity to have a go at each week.

Make a sock puppet of your favourite fairy tale character.

Which fairy tale character would you most like to be and why? Write your ideas down in sentences.

Write a list of as many fairy tales at you can think of! Which ones do you like the most?

Research a fairy tale that you have not heard before. What was it about? Did you enjoy it? Why or why not?

Fairy tales used to be told through word of mouth, rather than books. Can you tell a story in this way? Perhaps an adult would like to record you and post this on Tapestry?

Snow White is doing the washing. Each Dwarf needs 2 shirts and 1 pairs of trousers washed. How many things will she have to wash? You could use objects, draw or write number sentences to help you.

Use junk modelling to make a building from a fairy tale. It could be a tower, a castle, a bridge or a house.

Cinderella and her Prince are having a party. They send out 12 invitations. Each one is for 2 people. How many people did they invite? You could use objects, draw or write number sentences to help you.
