## Catch up Funding 2020/2021

*This report outlines how our school has spent the Catch up funding allocation in 2020-2021 and how it plans to spend it in the forthcoming academic year.*

### Our Principles and Objectives

Since our return to school after the 2020 Covid 19 outbreak teachers have spent time assessing all children- this has been through many forms such as more formal baseline assessments in Maths and Phonics, to daily informal assessments across all subjects through talking with the children and supporting their learning (example Flashback 4).

These simple assessments have not just been academic but also daily assessments of our children's mental well-being. Through these assessments we have identified a number of areas of development such as gaps within maths and phonics. We have also established some areas in which children's mental well-being has been affected.

This report will outline how the catch up funding will be used following a 3 tiered approach:

- Teaching
- Targeted academic support
- Wider Strategies

### Our Catch up Funding 2020 - 21

Total number of pupils on role to date: 235  
Total number of pupils currently eligible for catch up funding (October census): 235  
Payment 2 pupils:  
Payment 3 pupils:  
Total amount of Catch up Grant per pupil: £80.00  
Total amount of Catch up Grant: £18,800

### The 3 tiers of support

***In order to improve the progress and outcomes for all pupils we aim to:***

- Close the gaps in mathematics learning for disadvantaged and pupils at risk of not achieving ARE in Key Stage 2.
- Close the gaps in Phonics learning for disadvantaged and pupils at risk of not achieving ARE in Key Stage 1.
- Prioritise mental well-being for all pupils.
- Provide high quality blended curriculum that is accessible for all.
