

## Home Schooling Daily Plan

Year Group: Reception

No Screen Friday.

Today all our activity do not involve using the computer.

We hope you have fun.

Date: Friday 5<sup>th</sup> June 2020

**RE WAGBAT: learning about Pentecost being the birthday of the church.**

Pentecost is the festival when Christians celebrate the gift of the Holy Spirit. It is celebrated on the Sunday 50 days after Easter (the name comes from the Greek *pentekoste*, "fiftieth").

Pentecost is regarded as the birthday of the Christian church, and the start of the church's mission to the world.

**\*Task**

**\*\*Task**

**\*\*\*Task**

*To link in with our work Pentecost Day, today we have a fun art activity.*

*Today, using The Resources for Today Section, use the birthday cake template, or draw your own cake, to decorate for Pentecost. You may like to decorate it with the colours red, orange and yellow to symbolize the flames of Pentecost or maybe blue and white for the wind and the holy spirit in the form of a dove.*

*Have fun with this activity and use your imagination.*

**HAPPY BIRTHDAY  
CHURCH!**

English WAGBAT: reading by becoming a Tricky Word Detective.

This week we ask you to repeat this Tricky Word activity with these new words from the Phase 4 Tricky word list.

\*Task

\*\*Task

\*\*\*Task

This Friday, we are continuing to ask you to become 'Tricky Word Detectives.'

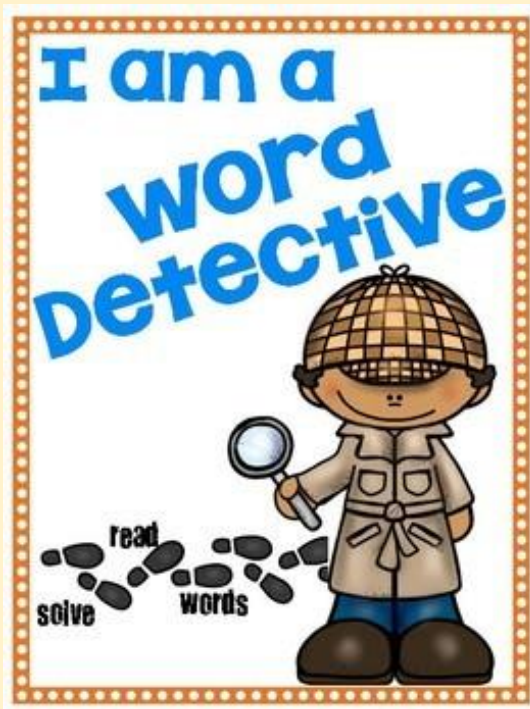

Looking at the words above, pick 3 words and then choose 3 children's books from home.

Start with one of your chosen words and write that word down (you could use the Template from The Resources for Today.)

Using your first chosen word, search through your books and find that word as many times as you can.

Repeat this with the next word and the next word and then record how many times you have found each word on your sheet.

We wish you good luck with this task.

**Maths WAGBAT: learning about money by handling coins and counting them to pay for items.**

**\*Task**

**\*\*Task**

**\*\*\*Task**

To end the week, please participate in more role play with your child to help consolidate their learning on paying for items.

In The Resources for Today Section, you'll find some price tags. Use these if you want to, to place on or next to toys, or food items in your home.

Depending on how your child has coped with their money work this week, set up the play activity so that one of you is the shopkeeper counting the money and one of you is buying items.

The items could cost a small amount (up to 5p on the tags) or could cost more if your child is able to count in larger amounts.

**\*\*\*Task**

If your child is coping very well with the set activities this week, use the problem solving ideas below that are similar to those we looked at on Wednesday.

If we buy 2 pizzas for 10p each , how much will we spend?

Let's work it out using the coins.

If I give you 20p what could you buy in our shop?

Let's see what costs less than 20p.

Could you buy 2 things?

Could you buy 3 things? etc...

If I buy a yogurt and milk, how much will I spend?

Let's lay out the coins to work it out.

What is the most expensive item in the shop?

Tell me how you know.

Topic WAGBAT: learning about plants by doing some plant art work.

**\*Task**

**\*\*Task**

**\*\*\*Task**

Today as part of 'No Screen Fridays,' we ask that you take time to do some art work linked to plants and flowers.

You may wish to take the opportunity to go outside for a walk, observe plants and draw them either whilst out or on your return.

If you have plants or flowers growing in the garden, perhaps your child could create art work using these as their inspiration.

Alternatively, look at the images below to inspire some art work linked to plants and flowers. Here you'll see pencil drawings, pastel work, paintings and collage work.

Be as creative as you can and enjoy the art.

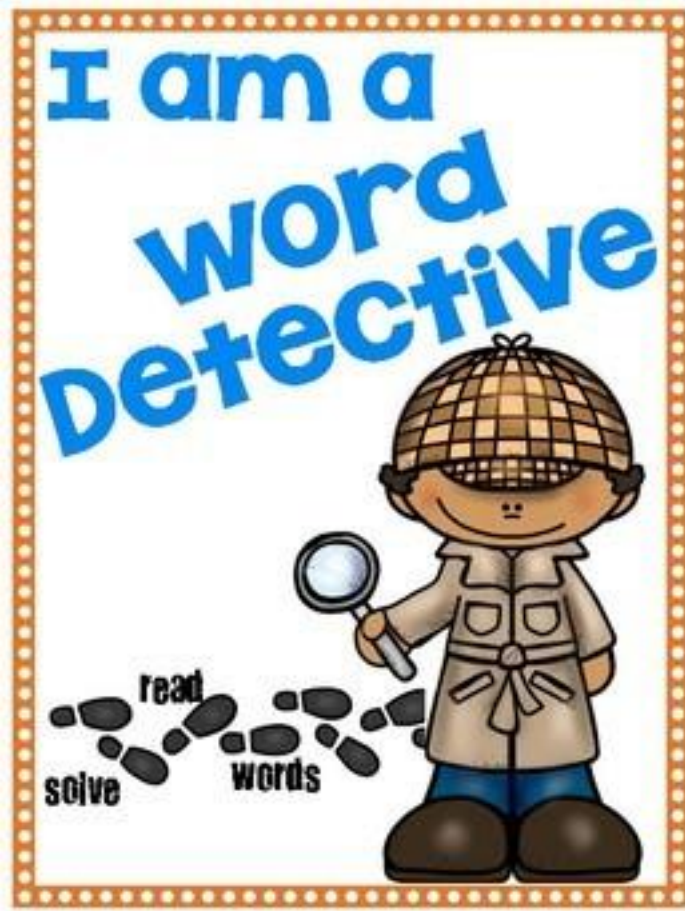

Have a lovely weekend.  
Mrs Evans.
