

Home Schooling Daily Plan

Year Group: 6

Date: Friday 05.06.20

Welcome to Friday. I'd like to share some images of the excellent work that Year 6 have been sending in to me over the past few weeks. It is so rewarding to see so many of you really engaging with your learning in what have been confusing and uncertain times. If you have any more work you'd like to share, then please send it to the email address below.

Today we have a math's arithmetic activity and a creative writing piece to complete.

If you have any other problems, queries or questions relating to home schooling or school itself then please contact me via this email address:

Year6@staugustines.dorset.sch.uk

Day 2

Dear diary, I woke up at 7:00am in the morning and got changed. I had my breakfast that was cereals. Then I started my work. First of all I started with P.E, which was with Joe which, inside. Then I moved on to Maths and done my arithmetic and number and ratio CBP book. I had lunch which was carrot soup, I ate it all. I did my R.E and drawn a picture of one of the labels.

I went outside with my brother to play badminton and then we played football and I scored 10 and my brother scored 9 goals but I went easy on him. I then I started making numbers to put on windows. I went upstairs and played with lego. I had my

1. 10, 7, 4, 1, -2, -5
2. -6, -4, -2, 0, 2, 4
3. -15, -10, -5, 0, 5, 10
4. -10, -6, -2, 2, 6, 10
5. 5, 3, 1, -1, -3, -5
6. -5, -3, -1, 2, 5, 8
7. 5°C more than -2°C = 3°C
8. 8°C more than -10°C = 2°C
9. 7°C more than -3°C = 4°C
0. 4°C more than -4°C = 0°C
1. 9°C more than -7°C = 2°C
2. 6°C more than -8°C = 2°C

I opened the magic door and saw
 A world that was turned upside down,
 The same was a spike when it became a goal
 A bit like the smartest boy in class becoming a clown,

I opened the magic door and saw,
 The image of a street I used to know,
 Like a hand that let me go,
 The same as a fish that's high not low.

I opened the magic door and saw,
 A sweet treat paradise,
 Like an outstanding piece of advice,
 Like a face everybody recognised.

Pip Davenport

Imagine a person called Pip Davenport who became famous for inventing new kinds of funfair rides over a hundred years ago. Here is the outline of his life.

Name: Pip Davenport
Born: 4th January 1850
Birthplace: Slewsbury

Helped his Uncle Henry at the funfair during the day and studied at night.

Invented new rides and won a prize for his inventions.

Wrote books about fairgrounds with his wife Hettie. He died in Slewsbury in 1920.

You can add your own ideas using your imagination.

Your task is to write a biography of Pip's life, including information about his inventions. Remember a biography should be written in the first person.

There is a planning template below to help you structure your writing.

Give yourself 10 minutes planning time and then write for up to 45 minutes. Make sure you read through your completed work to check for spelling and grammatical errors.

Planning

Make a note of ideas that will be useful in your writing.

What Pip's character was like	
Extra details about Pip's life	
Some of Pip's inventions	

Maths

On the Year 6 Homeschooling Links you will see an attachment titled:

Arithmetic Paper 5.6.20.pdf

This practice paper should take around 30 minutes to complete. Answers are provided at the bottom of the test for you to check how you have got on but it would be useful if you could indicate any areas/questions that you found particularly tricky.
