

Our School

On 15th December 1964, the Roman Catholic Bishop of Plymouth, the Rt. Rev. Cyril Restieux formally opened the new St. Augustine's Catholic Primary School. The new school had been opened to pupils from the previous September. The Bishop sprinkled Holy Water throughout the school, and fixed a crucifix above the platform in the crowded assembly hall. The school has served generations of Weymouth families.

Our School Environment

St Augustine's Catholic Primary School sits proudly on the Jurassic Coast World Heritage coastline and is located at the heart of the Weymouth community. We have a longstanding good reputation, being surrounded by supportive parents and people who value our school and its traditions. In 2016, we proudly opened our new school chapel, which is used by every class each week for reflection time and also for class mass.

We are proud of our history but we embrace the future and our school is as modern as it is old, with full disability access, modern toilet facilities and our relocated hall is spacious and accommodates our children during PE lessons, lunches, assemblies plus stunning performances our children regularly give which you will be invited to.

Our Learning Environments

As well as spacious, light, airy classrooms, we have a Music Room for creative use plus a well equipped computer suite. We also have access to lap tops and learn pads, we ensure each child can learn and improve their computer skills in all subjects. Every classroom is equipped with an interactive whiteboard to support learning. Throughout the school displays celebrate the rich and broad curriculum that children experience during their time at St Augustine's. Each classroom have Focal Points which invite children to take part in prayer and read the Gospel.

Our Grounds

St Augustine's Catholic Primary School has extensive grounds. Our wonderful grounds include an adventure playground, a forest school site, an outside classroom space, astro turf pitch and two traditional playground areas, with quieter spaces to enjoy during playtimes. We also have a large, dedicated Sports Field on the school site.
