

Welcome back Year 3,

We hope you had a lovely Easter and are now ready to start Summer Term activities. Keep using the original resources page (next week is - Week 4). Mr Collier will post anything extra on Summer Term 1. Thank you for the lovely pictures you have been posting on Facebook and Twitter, it has been great to see you are all working hard.

Some of you have not been visiting the Fractions sections on Mathletics, we appreciate that fractions can be tricky. Miss Sykes suggests you watch the lessons available on 5 NCETM lower KS2 on fractions as they might help. Our top Mathletics children this week are Jason L 3C, Bhavi 3L and Huxley 3ST.

Did you notice we lost the Weekly Year Group to Y2 by only 623 hits on April 17th?

Science this term is Plants and Humanities is "Full Steam Ahead". New activities for you to complete will be posted on the Science and Humanities tab on the website. Unfortunately, our upcoming trip to Locomotion in Shildon has been cancelled but we have uploaded some fun Science experiments from the museum to the school website. As we are studying railways, we would like you to read "The Railway Children". Try to answer the questions as you move through each chapter to gain a deeper understanding - see website for details to access an audible copy.

Finally, Miss Sykes suggests you listen to RadioBlogging.net at 9:30am every morning where you can join in with some fun English interactive activities. Look at our website for more details.

Stay safe, well and don't forget to keep smiling!

From Mrs Laidler, Mr Collier, Miss Sykes & Mrs Austin
Mr Jones, Mrs Stables, Mrs Corrie, Mrs Kayani, Miss Glen
and Miss Corker.
