

Whole School Homework!

What can you find out about your family's involvement in mining activities in the North East? Ask your parents and grandparents whether their parents, aunts or uncles ever talked about working down the pits and life during this time.

Give your homework and any drawings or pictures to your class teacher by Friday 25th October for display around school.

Do you have any photographs or items related to mining? If not, find out an interesting fact about miners, their life or their families.
