Covid

As cases are beginning to rise across Plymouth all families are requested to remain vigilant and undertake regular lateral flow tests. Reminder if your child has any one of the 3 main symptoms of covid they will need to have a PCR test which can be booked through the NHS website or by calling 119. The main symptoms of coronavirus are:

- A high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- A new continuous cough – this means coughing a lot for more than an hour or 3 or more coughing sessions in 24 hours (if you usually have a cough it may be worse than usual)
- A loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal.

Silly Science

Last week, Years 1 to 6 enjoyed a day of Science workshops with Professor Molly Cule. Originally intended for Science Week, the sessions were an exciting mix of 'Fizz, Pop, Bang' demonstrations. It was a fun way of learning about Forces such as thrust, lift and gravity and looking at chemical reactions involving mini explosions, pop rockets and fizz streams. Judging by the squeals, shrieks and laughter, all age groups really enjoyed themselves.

School Photos

Unfortunately, due to covid restrictions there will be no school photos this term.
