

Fair Share

You will need a cup and something that pours such as sugar lentils or dried peas.

Fill the cup with lentils.

Now share its contents into three equal portions. You can do this in any way you like but you must be sure that it is fair.

How you can check-use a tablespoon, or an egg cup, or any small container.

When you are sure it is fair ask an adult to check for you.

Now can you work out how many tablespoons of lentils fit your cup?

My cup held _____ tablespoons.
