

## Up to the brim

You will need a saucepan and a cup or mug a pencil and water.

- *Guess* how many cups or mugs of water will fit in the saucepan.
- Ask other people in your home to guess as well. Write down their guesses in the chart below.

Name of person	<i>Guess</i>

- To measure, fill the pan with water and carefully pour in to the saucepan. Do this as many times as you have to in order to fill the saucepan. Remember to count carefully how many cups you tip in.
- Write down you answer.

My saucepan held \_\_\_\_\_ cupfuls of water.

Whose guess was the closest?
