

20th November 2020

Dear Parents/Carers,

Gwithian Bubble

Thank you very much for your patience and understanding over the last 48 hours since we took the decision to close the Gwithian bubble as a precautionary measure under the advice of Public Health England.

We have received confirmation that the child's test result was negative. We have not been informed that any other members of the class have shown any symptoms and, as a result, we will be able to re-open the classroom from Monday 23rd November.

We look forward to seeing all the children back at school on Monday.

Best wishes,

Cathryn Andrews
Headteacher
