

## Ashfield Nursery Fundamental British Values

The Fundamental British Values are :

- Democracy
- Rule of law
- Individual liberty
- Mutual respect and tolerance for those with different faiths

At Ashfield Nursery these values are imbedded in our practice through the Personal Social Emotional Development and Understanding of the World curriculum.

Democracy: making decisions together

Within our Personal Social Emotional Development curriculum children know they are all treated and must treat others equally and we have equal rights.

Children are given the opportunity to develop their self confidence and self awareness, to make choices and decisions. They take turns, sharing and collaborating.

Rule of Law :

Children know that rules matter, they learn to manage their own behaviour and feelings: about learning right from wrong: about behaving within agreed and clearly defined boundaries, about dealing with consequences. Staff and children collaborate creating rules and the codes of behaviour.

Individual Liberty: freedom for all

As part of the focus on self confidence and self-awareness and people and communities in Personal Social Emotional Development and Understanding of the World children develop a positive sense of themselves, they are given the opportunity to develop their self knowledge, self esteem, and increase their confidence in their own abilities.

Children are encouraged to access a range of experiences that allow them to explore the language of feelings and responsibility, reflect on their differences and understand we are free to have different opinions.

Mutual Respect & Tolerance : treat others as you want to be treated

Ashfield Nursery ethos of inclusivity and tolerance where views, faiths, culture and race and our children are engaged in the wider community are embedded in our practice Children acquire a tolerance and appreciation of and respect for their own and other cultures, know about similarities and differences between themselves and others and

among families, faiths, communities, cultures and traditions and share practices, celebrations and experiences.

Children are taught the importance of tolerant behaviour, sharing and respecting others opinions.

We promote diverse attitudes and challenge stereotypes by sharing stories that reflect and value the diversity of children's experiences and provide resources and activities that challenge gender, cultural and racial stereotyping.
