

# School Council Report

By Zara Y5

I have really enjoyed being in the SMA School Council. It's a great opportunity for other students to get involved.

I know that because of everything happening with COVID19 we haven't been school council for long, however it was fun while it lasted. For example, we got nearly all the children who had Walkers Crisps recycling them so we could take the empty packets to the Walkers factory to get them reused.

We had a lot of suggestions from other pupils. They had a lot of ideas on how to raise money for charity and how to make the world a safer environment to live in.

School council had a few plans for the future but obviously they have been delayed by the COVID19.

Finally, I also would like to add that, without Mrs Smith we wouldn't have got as far as we have.
