

## HUMANITIES

This term the children will be learning about the Great Fire of London, understanding that sources of evidence from history are not always reliable. We will look at cause and effect and try to answer our Big Question: Why was London burning?

## MATHS

This term we will practice adding and subtracting, building on our work from last half term with part-part whole models. We will investigate the order of addition sentences and begin to discover that addition commutative. We will continue to partition but now explore more systematic ways to achieve this eg ten frames.

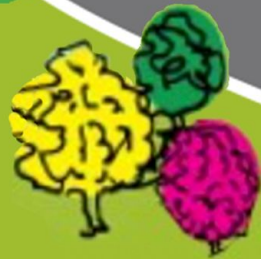

## SCIENCE

This term we are learning about light and dark. We will be investigating different sources of light and identifying which are natural and which are manmade. We will be using everything we have learned to answer our Big Question: Can a shadow grow?

## ENGLISH

This term we are using our texts to explore vocabulary and look at how we can identify different parts of a story such as the beginning, the middle and the end. We will be sequencing stories in the right order learning how to use time conjunctions to help us.

# OUR LEARNING JOURNEY
