Dear Parent/Carer

## Weekly Year Group Overviews for Parents

I hope you enjoyed the wonderful weather over the weekend. It was lovely to see the children back in school last week, ready for the summer term.

Thank you once again for the positive feedback on our remote learning provision during the lockdown. A number of parents have said that they found the weekly curriculum overviews very informative.

As a result of this, we have decided to share year group curriculum information with you every week.

You will be able to find this information in three places: SchoolPing, Google Classroom and on our website under the 'Curriculum' tab – the section is called 'Weekly Year Group Overviews for Parents'.

As before, these overviews include a short welcome and key information about the core subjects of reading, writing and maths. In addition to this, PE (including PE days) and Life Skill information will be covered. Finally, there is a reminder about 'Home Learning' activities which will include a weekly task set on Google Classroom for Years 1 to 6.

As always, your feedback is most welcome. Please contact me via the school office should you have any questions.

Kind regards

Peter Ediss

Deputy Headteacher
