

Physical Education Challenge 3 - Design a game

Design your own sports game. You can be as creative as you like!

The game could have no equipment, or include equipment you have at home (pillows, teddies, stationary etc), so please don't worry if you haven't got a ball!

Things to think about:

- Is your game for one player, two players or more?
- Can people score points in your game?
- Is it possible to win your game? If yes, how can they win?
- What are the rules? What happens if someone breaks the rules?
