Reception - Class Newsletter - Summer Term 2018

Dear Parents and Carers,

Welcome back to the summer term: the final term in Reception Class!

It's hard to imagine that just 7 months ago the children were walking through the door for the very first time! They have all grown, physically as well as in personality, and we are all very much looking forward to sharing these final weeks with them.

This term there will be a focus on preparing children for the Year 1 curriculum. This will mean more whole class teaching and encouraging children to be more independent. We will also be moving on with our phonics - the children have shown us throughout the year that they can quickly recognise sounds and we thank you for all the effort you have put in at home!

Another area that we will be developing as the term progresses is simple addition and subtraction, as well as the different vocabulary involved. There will also be the opportunity for children to use their knowledge to do some problem solving. Finally, we'll be making sure that we enjoy ourselves!

Thank you again for all your help and support this year and please feel free to come to us with any problems you have!

Our topics for this term are:

The Gambia - Using the texts Handa's Surprise, Fatou Fetch the Water and interlinked with the topic Healthy Me.

The Seaside - We have got a special trip lined up with Pre-school for this topic. We'll be looking at the seaside in general as well as a taking a closer look under the sea and the world that lives there! As a further element to this topic, we will be having a focus on the Jurassic Coast, fossils and dinosaurs.

There will also be a special themed fortnight taking place in the second half of the summer term! More details to follow!

Wow! Moments Firstly, thank you for the massive support so far in bringing in Wow! Moments. We strive to read them all out to the children before sending them for Mr Spracklen to see. Please continue to bring in Wow!

...where we are all inspired to learn

Moments as these do contribute towards how we assess children. As we are near the end of the term you may be wondering what to write on a Wow! Moment. Please feel free to add any discussions you have with children where they may articulate themselves very well or justify an opinion. As we are approaching summer we will also be seeing a lot of change in the environment so if children make observations about something they see, these are very useful! If you need any ideas please don't hesitate to come and ask us.

Snacks and Water – Always worth repeating... To maximise our brain function and encourage a healthy lifestyle, a healthy snack in school each day in addition to a bottle of water is recommended! Especially as the weather will (hopefully) be getting warmer. We are encouraging the children to drink and eat smart by keeping hydrated through the day and be conscious of what they are eating. The school also provides free fruit for children to have as a snack at break time. Milk will continue to be available at break times on the playground – or in the classroom when it is wet play. If you would like us to make sure your child has their milk, please come and see us. Snacks, such as crisps and sweets will be positively discouraged.

Blog/website - We try our best to keep our class blog up-to-date and hope you find it a useful source of information. This information can be accessed at home, work or on your mobile using our class RSS feed:

<http://pow-reception.blogspot.co.uk/>

PE Kits – At the end of this term there will be a **Sports Day** for Reception children. To prepare for this we will be working with the children on different skills. Most of the activities we will be doing will be taking place outside, so could we please ask that all children have a full PE kit with plimsolls or trainers. Some children are growing quickly and may have outgrown their plimsolls. We will let you know if this is the case.

Relationships & Changing Me – For our class Jigsaw topics this term we will be covering 'Relationships' and 'Changing Me'. The Relationships puzzle will cover the relationships children have with those most familiar to them i.e parents, grandparents. It will then move on to making friends and how to maintain friendships when issues arise. This puzzle will then end with an introduction to bullying, what it looks like and what to do about it. The second puzzle we will be covering (Changing Me) will give children an opportunity to look at their own bodies and what we need to do to protect them. We will also discover how much has already changed about their bodies and personalities since they were babies and what else will change as they continue to grow. The puzzle will also give children the opportunity to talk about their impending move to year 1 and who they can talk to about any fears they have.

Growth Mindset - We will be continuing to develop our growth mindset sessions. These are centred on the belief that we are all capable of learning anything new, even though this could be difficult and challenging at first. We have already been using Class Dojo to help to this end and have watched several series of videos covering perseverance, what a growth mindset is and 'The Dip'! Through the summer term we will be carrying out activities and discussions that help to develop our understanding of Growth Mindset. This then ties in to the 4 learning powers that we have across the school. These are Resilience, Reciprocity, Reflectiveness and Resourcefulness. Each learning power has certain skills within it that we discuss and learn about with children.

Dates for diary:

- Weymouth beach trip with Pre-school - Thursday 13th June

...where we are all inspired to learn

- Class assembly - Friday 19th July
- Dance day - Friday 5th July
- Sports Day - W/C 8th July
- Open afternoon - Thursday 18th July
- Bump up afternoon - Thursday 4th July
- Reception and New Starters BBQ - Tuesday 2nd July

Yours faithfully,

Mrs. Samantha Johnson
Reception Class Teacher
