

## We have a new online Maths resource!

RM easimaths is an online interactive resource that sets tasks based on your child's year group and ability. As your child makes progress with the resources the tasks will gradually become more challenging.

The site id is: russell03

Passwords will be sent by ParentMail

All usernames are currently first name, surname initial only, all lower case no spaces.

Please click on [Home - RM Easimaths](#) to have a go, do not try to download an app as your log in details will not work. Use Chrome on all of your devices: laptop, PC, tablet (iPad, Android, Amazon Fire or smartphones (Apple or Android). Email your year group inbox with any questions.
