

School Lunches

We are so excited to announce that we will be taking our school meals service in house! Through offering good quality, tasty home cooked meals on site we will have more control as a school what we serve. We will be able to link theme days to the curriculum and ask the children what their likes are to ensure we provide menus that our pupils enjoy.

The new Autumn term menu for school lunches will be uploaded onto the ParentPay system. Parents will then be able to make specific meal choices for their children up to a term in advance. For years 3, 4, 5 and 6, payment will need to be made at the time of making these choices for the lunch booking to be confirmed. You will, however, be able to change your booking and/or choices at any time online.

We will also be asking parents of children in Reception and Years 1 & 2 to use the ParentPay system to make their school lunch choices. As lunches are free for these years under the Government's Universal Free School Meals scheme, no payment will be required to do this but it will provide you with the flexibility to book a term in advance and to make any changes to your menu choices as required. If you child /children are entitled to Free School Meals you can still order them on the system, but again no payment will be required.
