

Draw a table with two columns and label them Main clauses and Subordinate Clauses.

Sort the sentences into the main clause and the subordinate clause.

- *The London Eye was formally opened on December 31 1999 after it took seven years to build.*
- *When the London Eye was being built, the main components were built of site before being shipped to the construction site where the wheel was assembled.*
- *When the London Eye is full, it has 800 people on each rotation.*
- *When it was built St Paul's Cathedral was redesigned by Sir Christopher Wren.*
- *Until the Star of Nanchang was built in China the London Eye was the tallest giant wheel in the world.*
- *While the wheel is still turning passengers can embark and disembark the London Eye.*
