13th February 2020

Dear parents / carers

HOME- LEARNING

Y5/6 are working hard in their learning. We know that they need to know and recall the content that they are being taught. We are therefore sending you this pack of revision facts so that you can see what your child needs to remember and you can help your child revise.

We would like your child to continue reading five times a week and to spend 5 short sessions revising and retrieving. The easiest way of doing this is for them to review their learning and then quiz themselves and check the results. They might enjoy quizzing with someone at home. They can also log in to IXL.

Your child's success requires team work from family, child and school. We are a three-legged stool holding up the cup of success: if one leg fails, the cup runs dry. Please support your child's learning by encouraging home-learning over the half term.

After half term, we will be starting study club for Y6 on Tuesday and Wednesdays after school. We are delighted that Ms Latham will be helping us as this means that Mrs Craven and I can offer small group or 1:1 tutoring. Individual invitations will be sent separately. I trust that our ambitious, keen and hard-working students will relish this opportunity.

Regards

Ms C Temple
Headteacher
