Learning Project WEEK 5 - Environment

Age Range: KS1

Please also encourage your child to look on Showbie where there will be other work available for them; spellings, maths and reading.

Your child should be uploading work to Showbie so that Mrs Hesselbo and Miss Gardner can see it. Weekly Maths Tasks (Aim to do 1 per day) Weekly Reading Tasks (Aim to do 1 per day) Play on Number Balance - play Listen to the information video about levels 1, 2 and 3. Make the scales caring for the environment. Discuss equal by ensuring that boths sides with your child after. Watch total the same value. Read a story that has a woodland in. Practise counting in 2s, 5s and 10s. This game could support this. Find and read a book aloud about materials. Discuss the materials you Look out of your window or stand in find and place them in alphabetical your front garden and count how order. many cars go past. What is the most popular colour that passes? What is Place the words onto paper and the least popular colour that passes? read them out aloud: environment, recycle, reuse, conserve. Can you Practise telling the time. This could put the sound buttons on? be done through this game https://mathsframe.co.uk/en/resour Listen to Newsround and discuss ces/resource/116/telling-the-time what has been happening in the Read to the hour and half hour. world this week. What new things have you found out? Choose a number between 10 and 20. How many different ways can this number be partitioned? Do bigger numbers have more ways they can be partitioned? **Weekly Phonics/Spellings** Weekly Writing Tasks (Aim to do 1 per day) Tasks (Aim to do 1 per day) Daily phonics - your child to practice Write a 'thank you' letter to the their sounds and blend words. - Weekly spellings uploaded onto Showbie to be practised and tested on

Learning Project - to be done throughout the week: Environment

The project this week aims to provide opportunities for your child to learn more about the environment. Learning may focus on changes to different environments, the impact of humans on environments, climate change etc.

<u>Create a chart to record the weather.</u> Label the chart with days of the week and record the weather at different points in the day. Can you write down key words and take a photograph of the sky. Does it change in the week?

Watch the weather report on T.V. How do they describe the weather? What do you notice about the map? Can you find Birmingham on the map? Have they got symbols when they are talking about the weather?

<u>Weather reporter:</u> Pick a day that you would like to present as a weather reporter. Can you create some symbols to use when you are talking about the weather? Can you talk about the weather in your local area and maybe compare to another place in the UK?

<u>Create a weather wreath.</u> Using different materials can your child design a weather wreath? Encourage them to think about the symbols used in your weather report.

<u>What a load of rubbish!</u> With your child look at the rubbish as a family you throw out. Do you help to recycle? How do you sort these into junk and into recycling? Look at the range of items and group them into different material groups. Talk to a family member about how certain groups are plastics and can also look and feel different to each other. Could you design a new way to help recycle more items? <u>Ideas</u>

Beat the clock- Can you sort items into the correct recycling and waste bins? Play

<u>Switch it off:</u> Ask your child to take a look at all the electrical devices in their house. Are they all plugged in? Do they need to be plugged in? How could they create a poster to place around the house to help remind people to switch it off once they have finished.

Save Electricity, Recycle Paper, Conserve water. What could you include on these? Where

could you place these in the house? Can you talk to your family about the posters and how you could help the planet?

<u>Write and draw!</u> Ask your child to choose one thing they could do to help the environment in school. Get them to make a poster to encourage people to do it! Think about the classroom and also the school.

World Environment day- This year it will be on Friday June 5th. On this day people from all over the world will do something positive to help our planet. Ask your child what could they do? Lots of little things can make a big difference. What could they do to celebrate World Environment Day at school? Can they create a poster to display at school?

Additional learning resources parents may wish to engage with

https://classroomsecrets.co.uk/free-home-learning-packs/ -These packs are split into different year groups and include activities linked to reading, writing, maths and practical ideas you can do around the home.

https://www.twinkl.co.uk/resources/class-management/school-closure-home-learning-classroom-management-key-stage-1-year-1-year-2 -to access these resources click on the link and sign up using your own email address and creating your own password. Use the offer code UKTWINKLHELPS.

https://www.headteacherchat.com - This is a blog that has links to various learning platforms. Lots of these are free to access.
