

WEEKLY ROUNDUP: 8TH – 12TH JUNE 2020

SHOUT OUT'S

WREN CLASS - Mrs Gray

The Wren class bubble is growing and it is so lovely to have welcomed Ava and Hugo back to school. We hope that more of our friends will join us soon.

All of the children have done so well in school and written some lovely story openings this week. A huge well done to Catrina who has used some excellent vocabulary in her work. Thank you to Christina, Georgia, Ryan, Zea, Mikayla and Esther who have all posted work on Padlet this week. Please do keep this coming in as it

is lovely to see what you are doing. Well done to Rory, Christina and Mikayla who have all done a quiz this week. Do not forget that I add books to the Padlet each week that you can listen to and then quiz on so everyone can do at least one quiz a week!

Well done to Catrina and Mikayla who have done some work on EdShed this week. Well done also to Christina who has completed work on Purple Mash this week.

Our home learning certificate this week has been posted to Mikayla who submitted lots of work this week. Keep up the good work.

KINGFISHER CLASS - Mrs Whittenbury

It has been lovely to see more Kingfishers join our Keyworker bubble and they have slotted in well. We have been busy working on shapes and angles in Maths as well as continuing a story in English. We have investigated reflection in Science and taken part in some PSHE activities focused on our thoughts and feelings after lockdown. A shout out this week goes to Alice who joined us midweek and has been trying hard in ALL of her activities, even when she found some of it tricky. Well done Alice!

I'm a little disappointed that not many people are sharing their work on Padlet. Only a couple of families have contributed this week and I would really like to see more of your pictures and work. I can see from the online platforms that many have been using TT Rockstars, well done to Poppy for maintaining one of the top scores. On Mathletics I can see Sophie has been working hard, as have Blake and Poppy. There is a backlog of activities from throughout the year which

haven't been completed for quite a lot of people. Please keep on logging on. I can see on EdShed that Albert has been working well on his spellings and Maths activities, as well as Darcy, Sophie, Poppy and Willow. Keep it up! I add extra spelling challenges each week. Albert, Mina and Rohan have all attempted an activity on Activelearn, a site where I have set grammar activities and allocated some books for you. Please log on and have a look. Contact school if you need your password again and we can send them out to you.

It would be lovely to see more of you taking part in the PurpleMash activities and Music activities which could be fun things to do on an afternoon.

Well done to those children (7 Kingfishers) who have completed quizzes after reading their books. It would be lovely to see everyone do these quizzes after they have finished a book.

KEY WORKER BUBBLE IN SCHOOL:

Nate has been working extremely hard this week and has wowed us all with his amazing writing where we continued a story as well as his efforts on measuring angles in Maths. Well done!

OWL CLASS - Mrs Lewis

This week in class, the Year 6s have enjoyed logging into Active Learn, reading online and answering quizzes. If you haven't tried it yet - they would all recommend that you do, because it's really fun. I know Alex has completed an amazing 79 quizzes on Active Learn already - well done Alex! Sadly, Owls are still not completing AR quizzes lately, apart from Nate - well done Nate. Nate has done other amazing work this week (see Mrs Whittenbury's bubble for further news).

Well done to Sophie this week for earning a Bronze Athletics certificate and for going on TT Rockstars. TT Rockstars has been visited by nearly all of you this week - please keep it up so that your times tables don't get rusty!

The Year 6s were excited to have a photo shoot in the playground for their leaver's book - thanks to Mrs Chippendale. We look forward to seeing the books, some of those star jumps were amazing! Also amazing was the Year 6 effort in Algebra this week - great stuff Year 6s. Talking of effort, our Star of the Week this week goes to Ellie-May who has worked really hard once again. She is always keen to start work and sets a great example to those around her.

Special congratulations to Eloise and Ellie-May who painted some beautiful 'Tempest' themed pictures, which will be up to see on the Padlet next week.

Keep up all the hard work everyone - every bit helps.
