Dear Parents/Carers

We have had an instance of head infestation in your child's Year Group.

Head infestation is a growing problem on Merseyside and Wirral and any school community by its very nature must be considered at risk. I have been informed by the school nurse that infestation is rife in this area again, but I would hope that in our particular case, with your vigilance and good sense, we could ensure that this will remain, for us in school, an isolated instance.

It is an emotive issue, a throwback to decades ago, but we would ask parents who discover head infestation to treat their child's hair immediately. Advice can be sought from our school nurse. Please see Mrs Hanton for details. I should like to thank the parent who has drawn this matter to our attention in such a sensible way.

Yours sincerely

Mrs A Donelan  
Headteacher
