

READING TO YOUR CHILD

There is no more important activity for preparing your child to succeed as a reader than reading aloud together. Fill your story times with a variety of books. Be consistent, be patient, and watch the magic work.

It's no secret that activities at home are an important supplement to the classroom, but there's more to it than that. There are things that parents can give children at home that the classrooms cannot give.

Even after children learn to read by themselves, it's still important for you to read aloud together. By reading stories that are on their interest level, but beyond their reading level, you can stretch young readers' understanding and motivate them to improve their skills.

"You're never too old, too wacky, too wild, to pick up a book and read to a child."
