

3<sup>rd</sup> April 2020

Dear Parents/Carers,

During this turbulent time, we recognise that the safety all children, families and staff is paramount. It is not feasible for schools to continue to provide a 'normal' school education during this time, however, it is important that children continue to learn; therefore, it is our intention to support you with home learning.

We will be providing weekly, broad and balanced activities for each class, aiming to be inclusive of all children. The school acknowledges that there are some restraints to this process: these may include availability of resources; availability of outside space; availability of adult time, and use of computing equipment, especially as many of you are working from home. In particular, some households have access to fast, reliable internet, others do not. Therefore, it is our realistic expectation that you do what you can to support your child with the resources and time you have.

Every Friday, beginning 10<sup>th</sup> April 2020, the school will be posting new differentiated home learning activities and ideas on the home learning page of the school's website. Also available on this page is a collection of websites, which have a variety of extra learning activities, free resources and advice for you and your child to access and enjoy; please be aware that none of these websites are endorsed by St Neot School. As always, reading is a critical. The school cannot encourage you enough to regularly listen to your child read and ask them questions.

If you experience any problems or need advice, please contact us on [info@st-neot.cornwall.sch.uk](mailto:info@st-neot.cornwall.sch.uk)
